Reducing the school's environmental footprint

The school continues to adopt a green school philosophy by monitoring our electricity usage, water consumption and recycling. Where possible, the school will always attempt to reduce electricity usage and water consumption and increase recycling efforts

We do this by –

- Utilising 2 10 000 litre water tanks to provide all water to the school (not including flushing toilets)
- Solar panels on roof.
- Cardboard and paper recycling program.

ENVIRONMENTAL FOOTPRINT INDICATORS		
Years	Electricity kWh	Water kL
2014-2015	16,058	1,825
2015-2016	29,843	626
2016-2017	54,616	896

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into OneSchool by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.
